All titles, updates, closings and other legal services shall be performed by an attorney assigned by KYTC Office of Legal Services. Payment for these services shall be the responsibility of KYTC.

### **2. Appraisal Reviews**

#### **a. Complex BAV (Before and After Value)**

In rare instance, the complexity of a property and/or appraisal problem may require specialized knowledge or increased documentation. Examples of this type of appraisal may include but not be limited to:

1. An acquisition from a university campus where the contributing value of the improvements must be documented as part of the larger parcel.
2. An acquisition from a golf course that affects one or more fairways and/or greens where the appraiser may need to consult an engineer or course designer to determine the true nature of the affect of the taking on the course.

#### **b. Standard BAV**

This category will be used for most KYTC appraisals. The contributing value of all improvements must be documented. Damages may apply in the after situation and may include but not be limited proximity, changes in topography, severed remainders, changes in highest and best use, loss of parking, etc.

#### **c. Minor BAV**

Used for minor acquisitions in which the amount of just compensation exceeds the maximum amount under which an MAR (Minor Acquisition Review) may be used. Improvements acquired will be minor in nature and will include but not be limited to items of landscaping, fencing and small secondary buildings (i.e. sheds). The principle building is unaffected and its contributing value may be estimated.

#### **d. BV (Before Value)**

Used only when the parcel is considered a total take and only the before value is needed.

### **3. Acquisitions**

All Acquisition Parcels are completed following the procedures within Right of Way Guidance Manual.

### **4. Relocations**
